smart

FOREIGN LANGUAGE
SCHOOL

Since 2006, each year we ensure extraordinary quality of foreign language learning, which is confirmed by 25 awards and over 3900 satisfied students and clients who participated in individual and tailored programs of learning.

Client satisfaction is our priority, so our team continuously invests 50 hours a year in their vocational training. We are constantly following world trends, and we are always striving to have our prices adjusted to Croatian conditions. For the purpose of monitoring client satisfaction, we have developed a quality system that we use to monitor and measure the satisfaction of our clients and regularly improve our services.

smart method

Our experienced team of professors has developed a method that emphasizes the sense of progress. It doesn't matter how much you need to learn; it matters how much knowledge you have acquired so far.

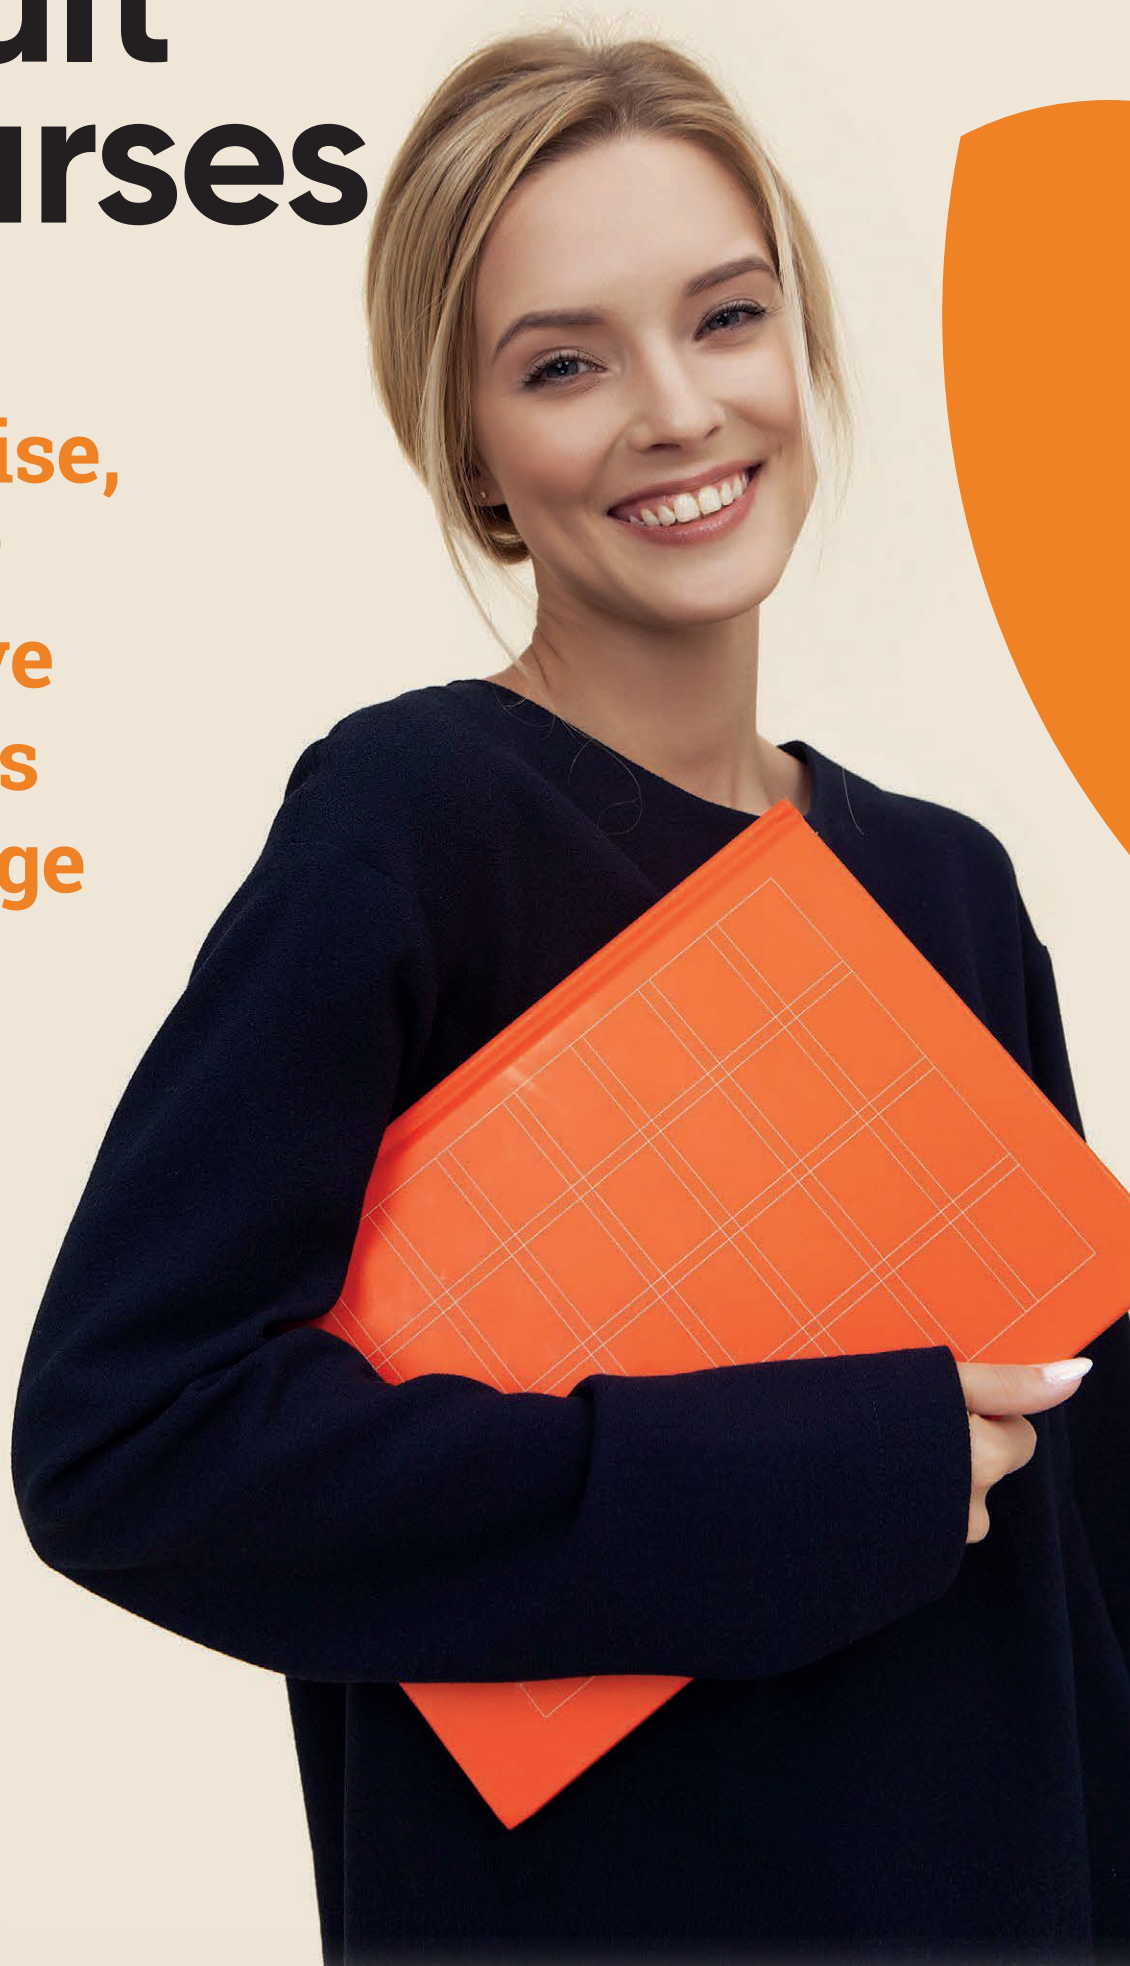

Each lesson is enriched with appropriate activities that lead you step by step to the desired goal – the use of a foreign language in everyday situations. Active communication in a foreign language is carried out from the initial stages, and grammar is adopted by observation and reasoning instead of learning by heart.

Through individual and group work, each student participates in classes equally. Therefore, do not bother to study the various existing learning methods and let the SMART method be your smart choice.

adult courses

Expertise,
quality
and love
towards
language

The curriculum and levels have been developed in accordance with the recommended standards of the Council of Europe. In smaller groups up to a maximum of twelve participants, the progress of each participant is monitored and active and equal participation in the teaching process is enabled.

Our goal is to train students to lead active written and oral communication in everyday and business situations. In addition to classical classes, we provide the ability to learn languages **via Skype/Zoom** and the **Smart-to-go option**. **Skype/Zoom** classes allow you to take a course from the comfort of your own home in terms that suit you and with the intensity that suits you, save you time and money and offer the possibility of transferring various files. **Smart-to-go** offers the possibility of a professor coming to your home. Gather your neighbours and friends and share the cost of classes!

types of courses:
general, conversational,
business, intensive

form of classes:
individual or
group

Skype/Zoom
classes or
face-to-face

intensity: 2x2 per
week or as agreed
(individual classes)

Duration: 60 school
lessons or as agreed
(individual classes)

kids courses

a fun
approach
to learning

Our professors have developed a SMART method that focuses on activities that develop children's creativity and autonomy in work, based on the most modern methods in the world.

The principle of our work is to learn through interesting and entertaining content, because in such an environment the children learn spontaneously, without fear of error and get to know other cultures, which encourages tolerance and understanding, not only of their own, but also of foreign cultures.

Smart kids Early Language Learning program is divided into 3 levels, i.e., approaches: **PRESCHOOL** (4–6 years), **SCHOOL 1** (7–9), **SCHOOL 2** (10–13). Various activities and modern materials are adapted to the age and ability of the child.

The program of pupil courses (SCHOOL 1 and 2) follows the child's psychophysical development, opportunities and interests, and special attention is paid to activities that complement and enrich the curriculum.

The curriculum and levels have been developed in accordance with the recommended standards of the Council of Europe. Children who attend classes properly, fulfil all obligations and pass the final exam receive a certificate of an appropriate level.

testimonials

"Small, dynamic groups are ideal for learning a language and an ideal activity at the end of a working day! Overall, I recommend it!"

(Viktorija M.)

"Our child has grown to love a foreign language in a year, at first we were not sure how he would accept English, but teacher Marko did everything so that our child could no longer do without English."

(mom Verica)

"I feel good in Smart.
There is a family atmosphere in
the school, there is no pressure,
and the way the lecturer teaches
is what actually relaxes us after a
hard day's work. The school also
works hard to satisfy all
affinities of the participants,
from culture to gastronomy."

(D.Š.)

"I am very satisfied with
the Smart School and the way
the classes and exams are
conducted. They are all very
accommodating and friendly,
making classes more fun and
interesting. Classes are full of
various content, which further
improves understanding."

(I.R.)

"I can only thank the
school and the professors for their
expertise, good organization and flexibility
in some of our requirements... The atmosphere
in the group is great, the groups are not too
large, it is very pleasant to learn in such an
environment. I would recommend Smart
School to anyone who wants to learn a
language from the beginning or improve
their current knowledge. A big thank
you to the whole Smart team!!!"

(S.C.)
